Good morning Julie,

My name is Rana Reynolds and I reside on the Bruce-Saugeen Townline in North Bruce. I am emailing you to let you know I, along with my family, have major objections to the new build application that is planned for directly across the road from our house.

I will start by saying we have been here for about 16 years now. We bought in this exact location BECAUSE of the surrounding farmland with no neighbours in front of us, behind us, and to the one side of us.

I am 100% OPPOSED to any building that could potentially happen directly across the road from us. If we wanted to be in a house that had other houses around us, we would not be living where we are. We take pride in our house and land, and I feel that severing and building directly across from us will depreciate the value of our home considerably.

My next concern is the noise and havoc that the construction is going to cause if this project does get underway. I am a steady night shift worker, I sleep during the day, and that, in itself, is another reason why we live in the country and not in a busy town or city.

The next concern I have is the depleting of farm land. Do we not need all of the farmland we can get nowadays? Or are farmers now eager to sell their souls to the man for some extra income?

I will reiterate the statement that as a person who lives DIRECTLY across from this proposed sight, I am fully and totally against any kind of buildings that could potentially be resurrected in our little piece of heaven, and we are absolutely devastated that we are going to lose the privacy that we have living where we do.

Here are a few pictures looking out of our front window directly onto the farmland that is being considered for this project. NOBODY appreciates and loves this view and privacy more than we do.

Regards,  
Rana Reynolds
